CELEBRATING
YEARS

CHRISTIAN
HERITAGE
SCHOOL

History

Christian Heritage School was founded in 1976 by a small group of people dedicated to building a biblically based Christ-centered school in southern Connecticut. Through the generosity of the Heritage Foundation and the vision from Pastor Paul and Mrs. June Anderson, building plans were drawn and ground was broken in December of 1976. CHS opened its doors to 53 K-6 students on September 6, 1977 and moved into the new school facility in January 1978.

For 45 years and with over 1,200 CHS graduates from 39 graduating classes, the unwavering vision and encouragement of the founders along with a faithful army of supporters have partnered with parents and churches to prepare a generation to serve Christ and His Kingdom.

Total Giving Summary for the 2021-2022 school year:

Over 650 generous donors contributed \$1,069,738 to the ongoing operations, and special projects at Christian Heritage School. We are deeply grateful to our partner foundations, CHS faculty, leadership, alumni, friends, and family.

CHS Mission

CHS is dedicated to the glory of God and founded in the belief that God is the source of all Truth. "and He is before all things and by Him all things consist." (Colossians 1:17) as it is revealed in the person of the Lord Jesus Christ, "in whom are hidden all the treasures of wisdom and knowledge" (Colossians 2:3)

Education has its highest meaning and purpose only as it is related to God's sovereign plans and purposes. Prov. 1:7 "The 'fear' of the Lord is the beginning of knowledge."

“ The student is not above the teacher, but everyone who is fully trained will be like their teacher. - Luke 6:40 ”

Annual Fund Goals

The 45th Anniversary Annual Fund is THE critical source of support for the exceptional work of our teachers and staff.

Our goal for the 2022-2023 school year is to have increased participation in the Annual Fund by generous donors and achieve 100% participation of our parents, Board of Trustees, Senior Staff and Faculty.

There are major projects in the works and planned for this school year:

Increased and enhanced security measures and personnel

New ventilation and air conditioning system installation

Upgraded technology and instructional resources

STEM (Science, Technology, Engineering, Mathematics) center for teaching and laboratory hands-on instruction
